

NATURAL STONE NEWS

FROM YOUR LARGEST NATURAL STONE SUPPLIER IN WESTERN CANADA

New Arrivals, New Thrills

SUMMER TUNDRA

“Summer Tundra” comes from a new quarry. Quality and finish is very good with uniform pattern. Colours of this stone are moss green, mica, rich brown and black. Just imagine a wet, weather-beaten alpine boulder and you will get the idea. Price is in the upper middle range. For the hot dry summer, prepare a few slabs of this cool looking stone in stock for your customers!

SAMSARA DREAMS

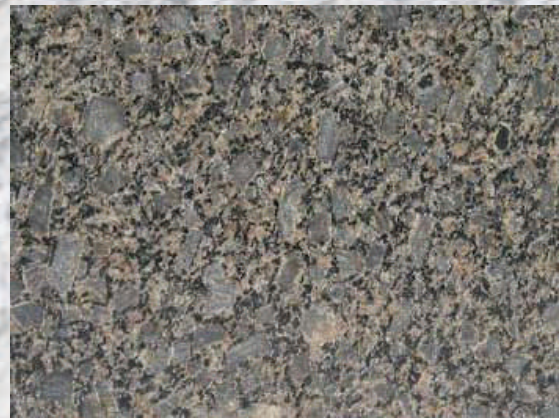

“Samsara Dreams” has unique colours and pattern. If you have a chance to admire Vincent Van Gogh’s famous “Starry Night”, you will be amazed by the magical paint brush of Mother Nature. Colours of this stone are mica, bluish grey with burgundy sprinkles; very uniformed in a rising, moving pattern. This stone is understatedly elegant, suitable for wine bar, cigar lounge and other hideout places. An architect recently used this stone for the exterior of a bank headquarters in Shanghai and took away the prize from the city. Price for this stone is in the lower high range.

Ralph Klein Says So...

Okay, Albertans will still be doing well for the next few years. Bank Canada is not likely to hike the interest rate for a while. Get steady supply from DMK STONE for the excellent quality and competitive prices and take a good slice of the booming building business
